

Vinova

Design by

Patrick Fasshauer 2007

The furniture folds from a sheet to a board profile, and is versatile and flexible in the surface design holding up to six glasses. Combining a trendy lifestyle with a classic board.

With **Vinova**, ofórm presents a new rack concept that is based on the concept 2D to 3D.

Through folding, the even aluminium sandwich sheet transforms into a board profile that holds wine glasses. The flock coating on the inside serves as a soft support for the glasses.

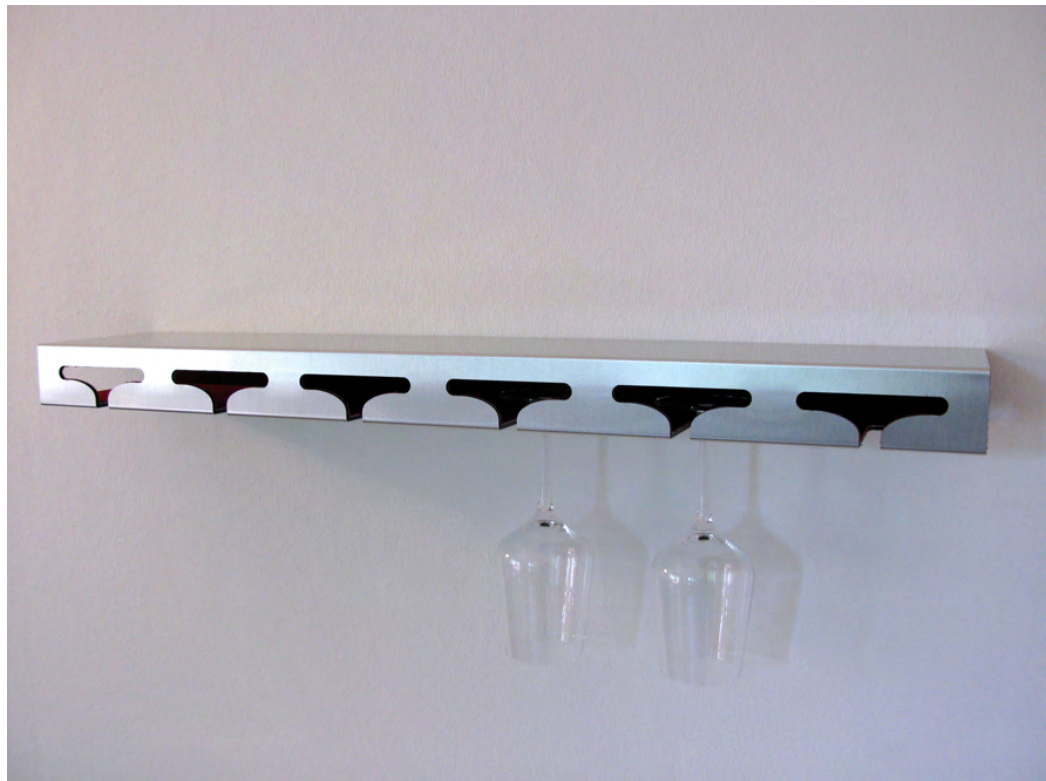

Vinova is versatile in its surface design.

Measures: 80 x 16 x 5,5 cm
